Rolyn Donates to Rebuilding Together

Rockville, MD, April 23, 2010: Rolyn Companies, Inc. announces recent donations to Rebuilding Together organizations in Maryland and Florida. Rebuilding Together is a national nonprofit that rehabilitates homes for low-income homeowners, particularly the elderly and those with disabilities. Rolyn recently provided discounted mold remediation services for the affiliate near their headquarters in Rockville, Maryland, Rebuilding Together Montgomery County (www.rebuildingtogethermc.org). The home had some serious mold issues that needed to be taken care of prior to volunteers making repairs during National Rebuilding Day on April 24th. Rolyn employees also volunteered during pre-workdays and during the National Rebuilding Day on projects sponsored by various organizations.

Rolyn also donated some slightly used window air conditioners to the affiliate near our Delray Beach, FL office, Rebuilding Together Broward County (www.rebuildingtogetherbroward.org). One of the air conditioning units will be going to a Vietnam veteran who is currently receiving chemotherapy for his cancer resulting from exposure to Agent Orange. Since there is a lengthy permitting process to replace his HVAC system, he will enjoy a temporary air conditioning unit until his permanent one is installed.

Sandra Veszi Einhorn, Executive Director of Rebuilding Together Broward County, Inc. commented, "Thank you for the generous donation of the window A/C units. This is going to offer some much needed comfort this summer for several families here in Broward."

Rolyn is pleased to make these small contributions to Rebuilding Together's efforts and our neighbors in the community.

About Rolyn Companies

Rolyn Companies is an award-winning, privately-held, full-service disaster recovery, restoration, and specialty construction firm headquartered in Rockville, MD. Rolyn has successfully completed nationwide disaster response, remediation, demolition, restoration and reconstruction projects for commercial, hospitality, industrial, government, educational, multifamily, and health care facilities throughout the country for over 30 years.
